SignupKit Accessibility Conformance Report

International Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version: SignupKit (web application at www.signupkit.co), production release as of October 11, 2026

Report Date: October 11, 2026

Product Description: SignupKit is a web-based tool for creating online sign-up sheets for volunteer shifts, events, RSVPs and similar. Organizers build sheets in a browser-based builder and dashboard; participants open a shared link and sign up without creating an account, optionally answering custom questions and signing a waiver by typing or drawing their name.

Contact Information: Ziyan, Founder, Elementra LLC, 8 The Green, Ste B, Dover, DE 19901, USA. Email: hello@signupkit.co. Accessibility information: https://www.signupkit.co/accessibility

Notes:

Scope: This report covers the participant-facing public signup pages (including slot selection, the signup form, custom questions, waiver signing and confirmation messages), the organizer sign-in page, the organizer dashboard, and the signup sheet builder. Payments on paid slots are handled by Stripe Checkout, a third-party page maintained by Stripe, and are out of scope. Content written or uploaded by organizers (titles, descriptions, images, attachments) is the organizer's responsibility; how the builder supports organizers in creating accessible content is reported under Section 508 504 Authoring Tools.

SignupKit is delivered only as a web application. It does not provide non-web electronic documents or non-web software, so the 'Electronic Docs' and 'Software' lines in the WCAG tables are Not Applicable.

Remediation plan: The items reported as Partially Supports are scheduled for remediation by December 15, 2026: (1) single-pointer 'Move up / Move down' controls for reordering slots in the builder (WCAG 2.5.7); (2) enlarging builder icon controls to at least 24 by 24 CSS pixels (WCAG 2.5.8); (3) darkening form field borders to at least 3:1 contrast (WCAG 1.4.11); (4) an on-page pause control for optional animated themes (WCAG

"Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

2.2.2); (5) builder prompts for alternative text on uploaded images and a language setting for sheet content (Section 508 504.3; WCAG 1.1.1 and 3.1.2 for organizer content). An updated report will be issued when these are released.

Revision history: Version 1.0, October 11, 2026, initial report.

Evaluation Methods Used:

Testing was performed by Elementra LLC on October 11, 2026 by testers familiar with the product, against WCAG 2.2 Level A and AA success criteria (which include all WCAG 2.0 and 2.1 Level A and AA criteria). Issues found during an initial round of testing were fixed the same day and the product was re-tested; this report reflects the re-tested release.

Manual keyboard-only testing of all primary workflows (signing in, building and publishing a sheet with date/time slots, item slots, a custom question and a waiver; changing sheet visibility; completing a signup with a typed-name waiver signature), including focus order, focus visibility, focus management in dialogs and keyboard traps.

Screen reader testing with Apple VoiceOver on macOS using Safari, covering the public signup flow and the sheet builder.

Inspection of the browser accessibility tree for names, roles, states and label relationships (Google Chrome, desktop); color contrast measurement of text and controls; reflow at 320 CSS pixels; the WCAG 1.4.12 text-spacing override; target size measurement; and review of status and error message announcements. Automated in-page checks were used only as a supplement to manual testing.

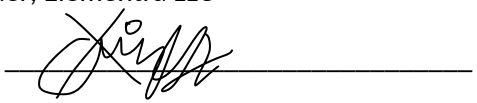

Not included in this round: testing with JAWS and NVDA on Windows, email notifications, the help center at support.signupkit.co, and Stripe Checkout.

Vendor Attestation

I attest that this Accessibility Conformance Report was completed by Elementra LLC, the vendor of SignupKit, and that to the best of my knowledge it accurately describes the accessibility of the product version identified above as of the report date, based on the evaluation methods described in this report.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	Yes

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- Revised Section 508:
  - Chapter 5 - 501.1 Scope and 504.2 Content Creation or Editing
  - Chapter 6 - 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG 2.1 Conformance Requirements.

Table 1: Success Criteria, Level A

Notes: 'Web' covers all SignupKit pages, including the participant signup pages and the organizer dashboard and builder. 'Authoring Tool' reports whether signup sheets created with the builder can conform (Section 508 504.2).

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Partially Supports	Web: Icons and icon-only buttons have text alternatives and decorative images are hidden from assistive technology. The signature drawing area has a text name, and signed waivers on organizer rosters include alternative text naming the signer. Authoring Tool: SignupKit does not prompt organizers to provide text alternatives for images, logos or documents they upload, and cannot check them. Organizer guidance is published on the accessibility page; in-builder prompts are on the remediation plan.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product interface contains no prerecorded audio-only or video-only content. Authoring Tool: SignupKit does not host audio or video content in signup sheets.
1.2.2 Captions (Prerecorded) (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product interface contains no prerecorded video with audio. Authoring Tool: SignupKit does not host audio or video content in signup sheets.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product interface contains no prerecorded video. Authoring Tool: SignupKit does not host audio or video content in signup sheets.
1.3.1 Info and Relationships (Level A)	Web: Supports	Web: Headings, landmarks, lists and dialogs are

Criteria	Conformance Level	Remarks and Explanations
Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	marked up semantically. Form fields have programmatically associated labels; related inputs are grouped under their question; option sets such as sheet visibility are exposed as radio groups and the time picker as a list box. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.3.2 Meaningful Sequence (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Reading and navigation order matches the visual order, including within multi-step signup dialogs. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.3.3 Sensory Characteristics (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Instructions do not rely on shape, size, visual location or sound. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.4.1 Use of Color (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Color is not the only means of conveying information. Required fields use an asterisk and are programmatically required; errors are shown as text next to the field in addition to a red outline. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.4.2 Audio Control (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product does not play audio. Authoring Tool: Signup sheets do not play audio.
2.1.1 Keyboard (Level A) Also applies to:	Web: Supports Electronic Docs: Not	Web: All functionality is available from a keyboard, including the date and time pickers, rich-text editor,

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Applicable Software: Not Applicable Authoring Tool: Supports	toggles and dialogs. Slots can be reordered with the keyboard (Space, arrow keys, Space). Waivers can be signed by typing a name and checking a box instead of drawing. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.1.2 No Keyboard Trap (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: No keyboard traps were found. Dialogs keep focus inside while open and can be closed with Escape; Tab moves out of the rich-text editor. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Keyboard shortcuts (such as text formatting in the editor) use modifier keys; there are no single-character shortcuts. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.2.1 Timing Adjustable (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: The signup and builder workflows have no time limits. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.2.2 Pause, Stop, Hide (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Partially Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Partially Supports	Web: Optional animated themes that organizers can apply to a sheet (for example falling leaves or snow) stop when the user's operating system is set to reduce motion, but there is no on-page control to pause them. An on-page pause control is on the remediation plan. The default theme has no moving content. Authoring Tool: As for Web: optional animated themes chosen by organizers lack an on-page pause control.
2.3.1 Three Flashes or Below Threshold (Level A) Also applies to:	Web: Supports Electronic Docs: Not	Web: No content flashes more than three times in any one second period.

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Applicable Software: Not Applicable Authoring Tool: Supports	Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.1 Bypass Blocks (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs	Web: Supports Electronic Docs: Not Applicable Authoring Tool: Supports	Web: Pages use a main landmark and headings so assistive technology users can skip repeated navigation. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.2 Page Titled (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Each page has a descriptive title, and signup pages use the sheet's title. Authoring Tool: Published sheets use the title the organizer gives the sheet.
2.4.3 Focus Order (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Focus moves into dialogs when they open and returns to the control that opened them when they close. After a validation error, focus moves to the field that needs attention. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.4 Link Purpose (In Context) (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Link and button purposes are clear from their text or accessible name; repeated Sign Up buttons name their slot (for example "Sign Up, Setup crew"). Authoring Tool: Signup sheets published with the builder meet this criterion.
2.5.1 Pointer Gestures (Level A 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: No functionality requires multipoint or path-based gestures. Drawing a signature has a typed-name alternative, and slot reordering has a keyboard alternative. Authoring Tool: Signup sheets published with the

Criteria	Conformance Level	Remarks and Explanations
		builder meet this criterion.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Actions are triggered on the up-event using standard browser controls. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.5.3 Label in Name (Level A 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Accessible names include the visible label text of controls. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.5.4 Motion Actuation (Level A 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: No functionality is operated by device motion. Authoring Tool: Signup sheets have no motion-operated functionality.
3.1.1 Language of Page (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Pages declare their language (English). Authoring Tool: Signup sheets published with the builder meet this criterion.
3.2.1 On Focus (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Receiving focus does not trigger a change of context. Authoring Tool: Signup sheets published with the builder meet this criterion.
3.2.2 On Input (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable	Web: Changing a setting or entering data does not cause an unexpected change of context; steps advance only when the user activates Next. Authoring Tool: Signup sheets published with the

Criteria	Conformance Level	Remarks and Explanations
● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Authoring Tool: Supports	builder meet this criterion.
3.2.6 Consistent Help (Level A 2.2 only) Revised Section 508 – Does not apply	Web: Supports	Web: Help and contact links appear in a consistent location in the site footer, and each signup page shows the organizer's contact details in a consistent position.
3.3.1 Error Identification (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Input errors are identified in text next to the field, the field is marked invalid and linked to the message, focus moves to the field, and the message is announced. Authoring Tool: Signup sheets published with the builder meet this criterion.
3.3.2 Labels or Instructions (Level A) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: All form fields have visible labels; required fields are indicated visually and programmatically, and optional fields are marked "optional". Authoring Tool: Signup sheets published with the builder meet this criterion.
3.3.7 Redundant Entry (Level A 2.2 only) Revised Section 508 – Does not apply	Web: Supports	Web: Information entered earlier in a signup is not requested again, with one exception considered essential: when signing a waiver, the participant types their name as the act of signing.
4.1.1 Parsing (Level A) Applies to: WCAG 2.0 and 2.1 – Always answer 'Supports' WCAG 2.2 (obsolete and removed) - Does not apply Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Authoring Tool: Supports	For WCAG 2.0, 2.1 and the Revised Section 508 Standards, the September 2023 errata indicate this criterion is always supported. WCAG 2.2 has removed this criterion.WCAG 2.0 Editorial ErrataWCAG 2.1 Editorial Errata
4.1.2 Name, Role, Value (Level A) Also applies to: Revised Section 508	Web: Supports Electronic Docs: Not Applicable	Web: Controls expose an accessible name, role, and state, including toggle buttons (pressed), switches and checkboxes (checked), radio groups, list box options

Criteria	Conformance Level	Remarks and Explanations
● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Software: Not Applicable Authoring Tool: Supports	(selected), sortable items and dialogs. Authoring Tool: Signup sheets published with the builder meet this criterion.

Table 2: Success Criteria, Level AA

Notes: Level AAA was not evaluated and is not included in this report.

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product contains no live audio or video. Authoring Tool: Signup sheets do not include live audio or video.
1.2.5 Audio Description (Prerecorded) (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Not Applicable Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Not Applicable	Web: The product contains no prerecorded video. Authoring Tool: SignupKit does not host video content in signup sheets.
1.3.4 Orientation (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Content works in both portrait and landscape orientations. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Name, email, phone and address fields identify their purpose with autocomplete attributes so browsers and password managers can fill them. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.4.3 Contrast (Minimum) (Level AA) Also applies to:	Web: Supports Electronic Docs: Not	Web: Text meets at least 4.5:1 contrast (large text 3:1). When an organizer picks an accent color, button text

Criteria	Conformance Level	Remarks and Explanations
Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Applicable Software: Not Applicable Authoring Tool: Supports	automatically switches to dark or white, whichever meets 4.5:1. Authoring Tool: The builder enforces readable button text on any accent color the organizer chooses; built-in themes are tuned for contrast.
1.4.4 Resize text (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Text can be resized to 200% with browser zoom without loss of content or functionality; zoom is not disabled. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.4.5 Images of Text (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: The interface uses real text, not images of text. Authoring Tool: Organizers enter text as text. Accessibility guidance advises organizers not to replace text with images of flyers.
1.4.10 Reflow (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Content reflows to a 320 CSS pixel width without horizontal scrolling. Authoring Tool: Signup sheets published with the builder meet this criterion.
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Partially Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Partially Supports	Web: Most controls and focus indicators meet 3:1 contrast. Text input and secondary button borders use a light grey (about 1.3:1 against white). These fields are also identified by their visible labels and placeholder text. Darker borders are on the remediation plan. Authoring Tool: As for Web.
1.4.12 Text Spacing (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: No loss of content or functionality when the WCAG text-spacing values are applied. Authoring Tool: Signup sheets published with the builder meet this criterion.

Criteria	Conformance Level	Remarks and Explanations
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Tooltips shown on hover or focus can be dismissed with Escape and do not hide required content. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.5 Multiple Ways (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs	Web: Supports Electronic Docs: Not Applicable Authoring Tool: Supports	Web: Organizer pages are reachable through persistent navigation and a searchable list of signups. Participants reach a sheet through the link the organizer shares or through the organizer's public page. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.6 Headings and Labels (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Headings and labels describe their topic or purpose. Authoring Tool: Headings and labels come from the organizer's titles and questions; guidance encourages descriptive slot titles.
2.4.7 Focus Visible (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: All interactive elements show a visible focus indicator when focused with the keyboard. Authoring Tool: Signup sheets published with the builder meet this criterion.
2.4.11 Focus Not Obscured (Minimum) (Level AA 2.2 only) Revised Section 508 – Does not apply	Web: Supports	Web: Focused elements are not hidden by sticky content; the builder's action bar sits outside the scrolling content area.
2.5.7 Dragging Movements (Level AA 2.2 only) Revised Section 508 – Does not apply	Web: Partially Supports	Web: Reordering slots in the sheet builder uses drag and drop. A keyboard alternative is available (Space, arrow keys, Space), but there is no single-pointer alternative yet. 'Move up / Move down' controls are on the remediation plan. All other functionality, including the public signup page, works without dragging. Drawing a signature has a typed-name

Criteria	Conformance Level	Remarks and Explanations
		alternative.
2.5.8 Target Size (Minimum) (Level AA 2.2 only) Revised Section 508 – Does not apply	Web: Partially Supports	Web: Controls on the public signup page meet the minimum target size. In the sheet builder, the slot reorder handles (16 by 16 CSS pixels) and the edit icons next to the sheet title and section heading (16 to 18 CSS pixels) are smaller than 24 by 24 CSS pixels and close to other controls. Enlarging them is on the remediation plan.
3.1.2 Language of Parts (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Partially Supports	Web: The interface is in a single language (English). Authoring Tool: Organizers can write sheet content in any language but cannot mark text that is in a language different from the page language. A content language setting is on the remediation plan.
3.2.3 Consistent Navigation (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs	Web: Supports Electronic Docs: Not Applicable Authoring Tool: Supports	Web: Navigation is consistent across organizer pages. Authoring Tool: Signup sheets published with the builder meet this criterion.
3.2.4 Consistent Identification (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) – Does not apply to non-web software ● 504.2 (Authoring Tool) ● 602.3 (Support Docs) – Does not apply to non-web docs	Web: Supports Electronic Docs: Not Applicable Authoring Tool: Supports	Web: Components with the same function are identified consistently. Authoring Tool: Signup sheets published with the builder meet this criterion.
3.3.3 Error Suggestion (Level AA) Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Web: Supports Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	Web: Error messages describe how to correct the input (for example “Please enter your name”). Authoring Tool: Signup sheets published with the builder meet this criterion.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Web: Supports	Web: Waiver signatures are part of a multi-step signup

Criteria	Conformance Level	Remarks and Explanations
Also applies to: Revised Section 508 ● 501 (Web)(Software) ● 504.2 (Authoring Tool) ● 602.3 (Support Docs)	Electronic Docs: Not Applicable Software: Not Applicable Authoring Tool: Supports	in which participants can go back with Previous or cancel before submitting, and must actively confirm their typed signature with a checkbox. Authoring Tool: Signup sheets published with the builder meet this criterion.
3.3.8 Accessible Authentication (Minimum) (Level AA 2.2 only) Revised Section 508 – Does not apply	Web: Supports	Web: Organizers can sign in with Google or an emailed sign-in link, or with a password field that supports password managers and pasting and has a show-password option. No cognitive function test or CAPTCHA is used. Participants do not need an account to sign up.
4.1.3 Status Messages (Level AA 2.1 and 2.2) Also applies to: Revised Section 508 – Does not apply	Web: Supports Electronic Docs: Not Applicable Authoring Tool: Supports	Web: Status messages (success confirmations, errors and the current step of multi-step signups) are announced to assistive technology without moving focus. Authoring Tool: Signup sheets published with the builder meet this criterion.

Revised Section 508 Report

Notes: Section 508 web requirements incorporate WCAG; see the WCAG 2.x tables for chapter 5 (501.1, 504.2) and chapter 6 (602.3) items marked 'See WCAG 2.x section'.

Chapter 3: Functional Performance Criteria (FPC)

Notes: Assessed by reviewing the WCAG results together with VoiceOver and keyboard-only testing.

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Supports	All functionality of the public signup pages and the organizer builder is available to screen reader users. Tested with Apple VoiceOver on macOS with Safari. See WCAG 1.1.1, 1.3.1, 2.1.1, 4.1.2 and 4.1.3.
302.2 With Limited Vision	Partially Supports	Supports browser zoom to 200%, reflow at 320 CSS pixels, text spacing and text contrast of at least 4.5:1. Some form field borders have low contrast and some builder icons are below 24 by 24 CSS pixels; see WCAG 1.4.11 and 2.5.8.
302.3 Without Perception of Color	Supports	Color is not used as the only means of conveying information. See WCAG 1.4.1.
302.4 Without Hearing	Not Applicable	SignupKit has no audio output and requires no hearing.
302.5 With Limited Hearing	Not Applicable	SignupKit has no audio output and requires no hearing.
302.6 Without Speech	Supports	No speech input is required.
302.7 With Limited Manipulation	Supports	All functionality is operable from a keyboard, and drawn signatures have a typed alternative. Some builder targets are small; see WCAG 2.5.8.
302.8 With Limited Reach and Strength	Supports	No physical reach or strength is required

Criteria	Conformance Level	Remarks and Explanations
		beyond standard keyboard or pointer input.
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports	Signups are split into short, numbered steps with clear labels, instructions and error messages. Animated themes stop when reduce motion is enabled. Organizer guidance encourages short, plain-language questions.

Chapter 4: Hardware

Notes: Not Applicable. SignupKit is a web application and does not include hardware, so the Chapter 4 criteria have been removed.

Chapter 5: Software

Notes: SignupKit is web-based software; criteria for platform software are Not Applicable. SignupKit is an authoring tool for signup sheets, so 504 is reported.

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	See WCAG 2.x section	See information in WCAG 2.x section
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.2.2 No Disruption of Accessibility Features	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2). It does not disrupt platform accessibility features.

Criteria	Conformance Level	Remarks and Explanations
502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.2 Modification of Object Information	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.3 Row, Column, and Headers	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.4 Values	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.5 Modification of Values	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.6 Label Relationships	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for

Criteria	Conformance Level	Remarks and Explanations
		accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.7 Hierarchical Relationships	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.8 Text	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.9 Modification of Text	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.10 List of Actions	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.11 Actions on Objects	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.12 Focus Cursor	Not Applicable	SignupKit is a web application, not

Criteria	Conformance Level	Remarks and Explanations
		platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.13 Modification of Focus Cursor	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.3.14 Event Notification	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
502.4 Platform Accessibility Features	Not Applicable	SignupKit is a web application, not platform software. It relies on the browser and operating system for accessibility services and exposes information to them through standard HTML and WAI-ARIA (see WCAG 4.1.2).
503 Applications	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Not Applicable	Web applications are exempt from 503.2 under its exception for software isolated from the platform. SignupKit respects the browser's zoom, text-size and reduce-motion settings.
503.3 Alternative User Interfaces	Not Applicable	SignupKit is not an alternative user interface that functions as assistive technology.
503.4 User Controls for Captions and Audio Description	Heading cell – no response required	Heading cell – no response required

Criteria	Conformance Level	Remarks and Explanations
503.4.1 Caption Controls	Not Applicable	SignupKit does not display video.
503.4.2 Audio Description Controls	Not Applicable	SignupKit does not display video.
504 Authoring Tools	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter "not applicable")	See WCAG 2.x section	See information in WCAG 2.x section
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Supports	When content is converted to other formats (embed code and roster exports), accessibility information is kept; for example, embed code includes a descriptive frame title.
504.2.2 PDF Export	Not Applicable	SignupKit does not export organizer content to PDF.
504.3 Prompts	Partially Supports	The builder automatically keeps button text readable on any accent color, and accessibility guidance for organizers is published at https://www.signupkit.co/accessibility. The builder does not yet prompt organizers to add text alternatives for uploaded images or to provide accessible attachments; these prompts are on the remediation plan.
504.4 Templates	Supports	Built-in themes and sheet types meet WCAG 2.2 Level AA; default accent colors were adjusted for contrast.

Chapter 6: Support Documentation and Services

Notes: None.

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required
602 Support Documentation	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Supports	SignupKit's accessibility features and

Criteria	Conformance Level	Remarks and Explanations
		known limitations are documented at https://www.signupkit.co/accessibility.
602.3 Electronic Support Documentation	See WCAG 2.x section	See information in WCAG 2.x section. Support documentation is web content; the help center at support.signupkit.co was not separately audited for this report.
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	Documentation is provided in alternate formats on request through hello@signupkit.co.
603 Support Services	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features	Supports	Information on accessibility and compatibility features is available from support through email and the contact form.
603.3 Accommodation of Communication Needs	Supports	Support is provided in writing through email and the contact form, which accommodates people who are deaf, hard of hearing, or have speech disabilities. Accessibility issues that block signing up are treated as urgent.
